### Museum Ludwig

"20th Century Art Museum"

Museum Ludwig had its beginnings in 1976 when Peter and Irene Ludwig donated 350 works of contemporary artists. Works by artists like Warhol, Lichtenstein, and Segal line the halls of this museum, which focuses primarily on 20th Century art. Visitors can study works of the Russian Avant-Garde from 1906-1930 as well as pieces on permanent loan by Pablo Picasso. Museum director Kasper König is interested in creating a dialogue with visitors; he encourages people to engage with the museum rather than being mere passing observers, so come equipped with your thinking caps! On first Thursdays, the museum is open till 10p.

### Cologne City Museum

"Cologne History"

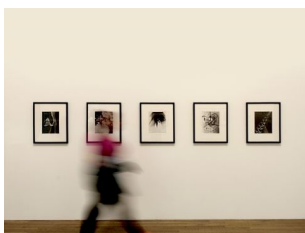

The Cologne City Museum (Kölnische Stadtmuseum) explores the rich history of the city, the daily lives of its people and its culture. Through its informative displays and intriguing exhibits, you'll learn about the city from medieval to modern times. Visitors learn about local attractions and landmarks, as well as the important festivals that shaped the culture of Cologne. You can see their collection of over 300,000 artifacts including medieval weapons, traditional armour and artwork. The museum is also home to the Rhenish Photographic Archive, which contains photographs showing the history of Cologne dating back to 1925.

### Forum für Fotografie

"Interesting Photography Gallery"

If you are an art aficionado with an inclination for photography then Forum für Fotografie is one place that must feature on your itinerary while touring Cologne. An art space that has delighted art lovers and artists since 2013, Forum für Fotografie presents itself as a platform for budding as well as established photographers. The place is busy with exhibitions all year round, and their facility is also extended on rent. Forum für Fotografie also deals in sale of art.
